

Numismatic Exhibition

On May 9th, **Colegio Albania** organized a numismatic exhibition in its library, showcasing over 250 banknotes from 150 countries. Professor Matías Beltrán, a licensed Social Sciences teacher and master's degree holder in Pure Philosophy, delivered a lecture on topics such as numismatics, banknote and coin composition and care, and counterfeiting. His students presented additional topics, including the portrayal of women in numismatics and its relationship with sports. The event concluded with a proposal to create a banknote in honor of La Guajira, designed with the help of students, highlighting its cultural and geographical values. Colegio Albania stood out as a benchmark in promoting research and cultural enrichment.
